Description

Immediate ECG interpretation from our Clinic At Olive Health you can access immediate results to your ECG. We transmit your ECG recording to clinical experts for interpretation and results are available to us immediately over the phone, followed by a full written expert clinical analysis and interpretation / report by email. The provision of such diagnostics within our clinic greatly enhances patient experience and convenience. It also greatly enhances the quality of medical provision because it enables clinicians to make better-informed and immediate diagnoses and patient management decisions. Please be informed that Olive Health is a Nurse-Led clinic, and any further management of your ECG results will be done by your GP, Consultant, or other referring clinician as appropriate. Results can be available immediately, overnight (available by the next day) or by the following week (available on the Monday). Each wait-time holds a different fee. Please see our pricing page.
